

Identify, Locate and Protect Underground Services

1 DAY PROGRAM FOR NEW OPERATORS

Course Code ATM024

AIM OF THE COURSE / TARGET GROUP

This course provides participants with the skills and knowledge required to correctly identify, locate and protect underground services in preparation of a site for construction operations including searching for known or potential services or utilities which may exist under the surface of a specified excavation site. This course is suitable for individuals who require to identify, locate and protect underground services in a variety of environments.

DURATION

1 day *Please note: comprising 4 hrs classroom theoretical training, plus in-field learning activities, followed by a 1 hour performance assessment.*

COURSE CONTENT

The program addresses the following:

- An overview of the Dial Before You Dig (DBYD) system
- Methods for locating underground services
- Use of locating equipment
- Work methods when in close proximity to an underground service
- Actions to be taken when an underground service is damaged
- Actions to be taken if any workers are injured as a result of damage to a service

ASSESSMENT METHOD

Knowledge based and practical assessment

PRE-REQUISITE FOR THIS COURSE

Must have basic English literacy skills and be **over 18 years of age**

Important note

ACADEMIC AWARD AND RECOGNITION
